MEN WHO KNOW

AGREE THAT CATARRH IS A CONSTITU-TIONAL DISEASE

AND REQUIRES A CONSTITUTIONAL REMEDY LIKE HOOD'S SARSAPARILLA.

Prof. GROSS, a leading scientist, argues strongly that "catarrh is a constitutional disease which manifests itself by local symptoms."

Dr. DIO LEWIS, the eminent Boston physician, in a magazine article said: "Catarrh is not a disease of the man's nose; it is a disease of the man, showing itself in the nose—a local exhibition of a constitutional trouble." Therefore, he argues, the use of snuff and other local applications for CATARRH

Is wrong, and while they seem to give temporary re-

lief, they really do more harm than good. Many others might be quoted to the same effect. BEING A CONSTITUTIONAL DISEASE, the only proper method of cure for catarrh is to take a consti-tutional remedy like Hood's Sarsaparılla, which

reaching every part of the body through the blood, does eliminate all impurities and make the whole man healther. It removes the cause of the trouble and restores the diseased membrane to proper condition That this is the result is proven by thousands cured of catarrh by taking HOOD'S SARSAPARILLA. The best blood purifier, the best strength builder, the

best nerve helper. Give it a trial.

Because great things are required of it. Curing skin diseases is no easy matter. Every sufferer from torturing, disfiguring, itching, burning, bleeding, scaly and pimply diseases of the skin, scalp and blood, with loss of hair, will admit this in view of the almost total failure of the usual remedies. CUTICURA is the greatest of skin cures.

SCIENTIFIC DENTISTRY AT MODERATE

EVERY EVENING, ONLY MATINEE SATURDAY, has made this work a specialty for years: We use more gas than any firm in America, guaran we use more ras than any firm in America, guaran-teeing it to be chemically pure and the best that money or science can procure. With such an agent there is positively ne danger, but for those who prefer a local anæsthetic we use cocaine and zonine (the latter our own invention), applied to the gums hypodermically. In short, we are prepared to administer any known anæsthetic and to extract your teeth SKILLFULLY as well as PAINLESSLY. as well as PAINLESSLY.
